

Help our City get rid of E-Waste the right way by diverting it from the landfills to a proper recycling process!

- Electronic discards are one of the fastest growing segments of our nation's waste stream.
- 56% of American households have functional e-products that they will no longer use.
- Less than 10% of e-waste is currently being properly dismantled or recycled.
- 70% of heavy metals, 40% of lead and mercury contents found in today's landfills come from e-waste.
