DON'T FORGET TO STRETCH!
Below is a stretch routine to incorporate into your workouts.

• ROTATING WRIST AND FOREARM STRETCH:
Place one arm straight out in front and parallel to the ground. Rotate your wrist down and outwards and then use your other hand to further rotate your hand upwards.

• SQUATTING LEG-OUT ADDUCTOR AND GROIN STRETCH:
Stand with your feet wide apart. Keep one leg straight and your toes pointing forward while bending the other leg and turning your toes out to the side. Lower your groin towards the ground and rest your hands on your bent knee or the ground.

• STANDING HIGH-LEG BENT KNEE HAMSTRING STRETCH
Stand with one foot raised onto a table. Keep your leg bent and lean your chest into your bent knee.

• RHOMBOIDS:
Hold one arm up in front of you with a 90° bend. Then cross your other hand under the elbow and try to bring it up so your palms are touching (they don’t have to be).

• WIDE SQUAT
Get into a wide squat position with your knees around 90°. From here the idea is to just feel around the range of movement you have and see where you’re tight.
